Our organisation

Doncaster Mind is a passionate and energetic organisation that works to promote recovery from mental ill-health, improved emotional well-being and independent living. We offer a range of both face-to-face and online services from one-to-one support, groups, activities, guided learning and training and volunteering opportunities. We also work with Doncaster council and Rotherham, Doncaster & South Humber NHS Foundation Trust on specialist projects and services.

Our small team really cares about making a difference to the people of Doncaster and we work hard to make a positive change for people's mental health. Last year we helped over 1607 people who are living with mental health problems.

We have been supporting people in Doncaster for over 45 years.

We are affiliated to the Mind network BUT we are not a branch of national Mind – we are an independent local charity that fundraises locally and applies for grants and bids in order to continue our work.

We believe

- No one should have to face a mental health difficulty alone
- We won't give up until everyone experiencing a mental health difficulty gets the support they need and deserve

What people say about us:

"Being able to talk without judgement to my counsellor I've been able to reflect on how my past has affected me. I'm so grateful and now feel able to build my life back up and even help others. This service has been a life saver"

"I wasn't sure what to expect from mentoring but I gained so much from it and my mentor was great."

"I never speak out in groups, but I did - thank you. Keep doing what you have been doing"

"I have lost count now of how many students you have taken on as volunteers. The ones you have speak highly of Doncaster Mind and this is great for their development. Thank you"

"Thank you Doncaster Mind staff I really couldn't be more grateful for all the amazing work and support you do"

Applying for a job can be a big step for a whole range of reasons and we want to make Doncaster Mind a potential work option for as wide a range of people as possible. A diverse staff team creates the value in our services that we want all those we help to experience.

We have included as much information as possible in our pack. If you are interested in a vacancy but are unsure if you should apply, then I strongly recommend you give us a ring. It is equally important that you find out about us as well as us finding out about you!

We are always keen to hear from people who are passionate about mental health and about working to support those who are experiencing mental ill health. Perhaps you have had your own experience of mental ill health and feel that your own learning and journey may help you to support others.

We are proud to be able to celebrate the diversity of our existing team and welcome interest in from all cultures and backgrounds that make up Doncaster's community – whether that's for support, for employment, for volunteering or for partnership. We recognise our responsibility to be a force for good and aspire to being a great example of equality, diversity and inclusion in action.

We look forward to hearing from you!

Mental Health Community Connector at Doncaster Mind

Over the last 2 years we have worked with RDaSH through their Primary Care Mental Health Hubs and have designed, established and delivered a person centered, trauma informed model (Low Intensity) for our Mental Health Community Connectors in Doncaster, that is unique and has been recognised as having a valuable service in supporting early intervention/prevention mental health support. This project is also working in partnership with The People Focused Group through the High Intensity Pathway. We have recently reviewed this model in partnership with the RDaSH Primary Care Mental Health Team and are positioned to clearly understand the benefits of a service in which high intensity and low intensity, one to one support, group support and specialised support work seamlessly together.

Our model will work with the Primary Care Mental Health Hubs to give support to people who have been identified as needing low intensity support. We will do this by identifying the need and working with the individual to ensure that a wide range of diverse community interventions, models and methods have been considered. This will ensure that individuals are informed of choices and options and supported by their own community to enable a positive impact of their mental health and wellbeing. We know that a holistic approach of both a blend of clinical interventions and VCSE community-based support such as social, psychological and self-help strategies enable people to maintain their recovery and are less likely to fall into crisis.

The Role

Through practical support, the MH Community Connectors will work with people through the low intensity pathway on a 1:1 basis within the communities to help them to join activities and groups, access services, like supported self-help, wellbeing courses, wellbeing activities, and mentoring, both internally and externally whilst helping to build their social connections.

Additionally, our Community Connectors can offer practical help such as showing people where to get help in the community; how to ask for help; sitting with people while they make calls & arrange appointments for themselves; encouraging ongoing communication that facilitates friendships and positive relationships; going with people to discover Doncaster's community assets.

Our ability to facilitate these sessions and support comes from our longstanding and positive working relationships with the many community based organisations and groups across Doncaster for example, Citizen Advice Doncaster, DIAL, Live Inclusion, Aspire, Well Doncaster, Edington Helping Hands, Changing Lives, Open Minds, AGE UK, South Yorkshire Housing, Working Win, Cloverleaf Advocacy Service to name a few.
